Welcome at Elektor Labs! Here you can add your own project to share within our community. You may receive input from your peers when you need help or feedback. Also, the Elektor Labs professionals are also closely watching this section of our website to help out or on occasion select projects that could even be published in our magazine.

CONTEST PARTICIPANTS: Please use this form to submit entries to design contests managed by Elektor, such as the STM32 Wireless Innovation Design Contest (2023-2024). To do so, please fill in the fields and provide project files (photos, schematics, code, documentation, etc). Make sure the appropriate contest is selected in the "Contest" drop-down list below

Title

project engineering Career Discovery and Mentoring

Video

projection discovery career tshingombe

Project image

Add your project image here

JPG, PNG or GIF file (5 MB max)

400 x 225 pixels minimum (16:9 aspect ratio)

Description

Please add the full description for the project. Important: the text must be in English language in order for the project to be accepted.

SOS

Elektor Jumpstarter allows testing the viability of a project before producing it and putting it as a product in the Elektor Store.

If you want to try it, mark it here as Elektor Jumpstarter. The project will then be evaluated by Elektor. If it is

accepted, we will determine a price and a minimum amount that must be sold for the project to be viable, and a backing can be determined. If the project is successful, the project will move into production.

(<https://www.elektormagazine.com>)

Jumpstarter

First time? Our staff approves every first project before publication.

Elektor is an international platform for applied electronics, providing engineers, makers, and startups with expert content, practical knowledge, and industry insights. Since the 1960s, we've empowered a global community to design, build, and share real-world solutions. Members get exclusive project access, store discounts, and opportunities to collaborate with top innovators. Whether you're learning, designing, or scaling a business, Elektor helps you connect, create, and grow.
